When I go to the playground I like to play safe. Teaching kids how to play safely is important, if kids know the rules of the playground they are less likely to get hurt. Kids should always have adult supervision on the playground. Before you visit a playground, check to make sure that play areas are designed to allow an adult to clearly see kids while they're playing on the equipment. Younger kids should not play on equipment made for the older kids. Kids must know to be safe and act responsibly at the playground. Never push or rough on jungle gym, seesaws, swings or by the sprinklers. Always leave dangerous weapons away from the playground. When kids are riding bikes they should always wear their helmets. Also when playing on equipment children should not climb outside guardrails and should not stand on swings.

Lastly if you see anything dangerous activities going on in the park you should report it to an adult.

The End
