

FRONT END WEB DEVELOPMENT

Build your technological future with this new course offered in conjunction with Albany Can Code!

Adults can learn the coding and technical skills necessary to build websites through hands-on practice, tutorials, assignments, as well as individual and group assignments. Through lecture and individual assignments, students will establish solid foundations in key tools of front end development.

Participants will learn:

- ✓ HTML, CSS, Bootstrap
- ✓ jQuery, JavaScript/jQuery
- ✓ Collaborative workplace/version control tool Github.
- ✓ Much more ...

Albany Can Code Front End Web Development Certification awarded to program completers!
