

**YOU CAN STOP THE SPREAD
OF CORONAVIRUS (COVID-19):**

GET TESTED

**Did you participate in a local protests or a
mass gathering the last few days?**

**Do you feel like you could
have been exposed to COVID-19?**

If so, Albany County Department of Health along with Whitney Young have partnered to perform **WALK UP** testing for individuals.

**Thursday, June 4, 2020
1:30pm - 4:00pm
20 Warren Street, Albany
South Campus Center Parking Lot**

Please bring a form of identification and your insurance card if you have medical insurance. Testing will be available for those that do not have insurance.

Testing is important even for those that have no symptoms. Early diagnosis can save lives. Please protect your health and the health of your community.

Testing is recommended once this week and once next week for those that attended protests. Wearing masks does not offer complete protection. **If you develop symptoms such as fever, chills, sore throat, cough, headache, muscle or body aches, shortness of breath, new loss of taste or smell, nausea or vomiting or diarrhea, please get tested immediately.**
