

NEW

CANNABIS CONSTRUCTION PROGRAM

Build a new career in New York State's emerging legal cannabis industry!

The Capital District Educational Opportunity Center (CDEOC) is excited to offer a new building trades program focused on New York State's emerging and expansive legal cannabis industry: Cannabis Construction.

The CDEOC is dedicated to addressing the needs of adults in New York State who have faced multiple barriers to education, both economic and social. This includes the thousands of individuals from low-income communities of color disproportionately targeted, arrested, and incarcerated for cannabis possession in the past. This new program aims to create opportunities in the field for training, employment, and entrepreneurship.
